# 214 and 215 Series Aluminium Case Padlocks

The Lockwood 214 and 215 Aluminium Series Padlocks are a range of durable, rugged and lightweight 40mm aluminium case padlocks with full commercial grade special keying. The range has been specifically designed to meet the requirements of commercial and industrial applications. Along with a range of up to eight clearly identified coloured jackets, it is ready to be custom marked to make lock identification easy.

## Features and Specifications

- Self latching double ball locking
- Can be converted from self latching to deadlocking (key retained) by simply relocating the cam plate pin in the cylinder assembly
- Covers available in eight easily identified colours.

## Product Details

<b>Materials</b>	Body: Heavy duty, aluminium case extrusion. Shackle: Stainless steel.
<b>Function</b>	Spring loaded shackle, available with latching function where the key can be removed with the shackle in the open position (L) or deadlocking function where the the key is retained and can only be removed with the shackle in the locked position (D).
<b>Finish</b>	Body: Red anodized aluminum. Shackle: Natural material.
<b>Cylinders</b>	Rekeyable 334 type padlock cylinder. Inline pin cylinders can be keyed to 5 or 6 pins.
<b>Shackles</b>	214 Model: 5.0mm diameter, 19 & 50mm lengths. 215 Model: 6.4mm diameter, 19 & 50mm lengths.
<b>Special Keying</b>	Locks can be keyed to a number of controlled and / or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication and can also include specially designed keying systems such as master key systems. This allows for different levels of mechanical access control.  Bulk Locksmiths versions are available.

**Note:** Custom marking is available. Pricing and availability on application.

## Standards and Compliance

### SP3-6

Physical Security grades are employed for padlocks. These grades are defined in part by the effective differs and key combinations. Padlocks Physical Security (SP) grade range from 3-6.

Anti-Corrosion. Corrosion Resistance Rating C4. Environments that are sometimes damp in the majority of rural and suburban localities, including interiors where condensation may occur.

All products are designed and tested to the Australian Padlock Standard AS4145.4 2002 and are rated for both security and corrosion resistance.

# 215P Series Plastic Body Padlocks

The Lockwood 215P Plastic Body Series Padlocks have been specifically designed for the electrical and mining safety lockout industries. When specified with a polymer shackle the padlock becomes completely non-conductive allowing for safety lockout within electrical applications.

## Features and Specifications

- Excellent corrosion resistance
- All components are non-sparking
- All components are non-magnetic
- Meets OH&S guidelines of one employee, one padlock and one key
- Available in six colours
- Includes write on “Danger” label

## Product Details

<b>Materials</b>	Body: Plastic. Shackle: Plastic or brass.
<b>Function</b>	Spring loaded shackle with deadlocking function where the the key is retained and can only be removed with the shackle in the locked position.
<b>Finish</b>	Body: Coloured plastic. Shackle: Natural material.
<b>Cylinders</b>	Rekeyable 334 type padlock cylinder. Inline pin cylinders can be keyed to 5 or 6 pins.
<b>Shackles</b>	Available in 6mm diameter, 50mm long, brass and polymer shackles.
<b>Special Keying</b>	Locks can be keyed to a number of controlled and / or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication and can also include specially designed keying systems such as master key systems. This allows for different levels of mechanical access control.  The standard key supplied is the 6 pin restricted E3 profile. The key head is marked 'Safety Do Not Copy'.  Bulk Locksmiths versions are available.

# 312 Series Padlocks

The Lockwood 312 Series Safety Lockout Padlocks are a durable and rugged brass padlock that has been specifically designed to meet the requirements of safety lockout applications.

Multiple departments or jobs can be easily identified using one of the jacket options. Laser etching is also optional for individual identification when using the windowed jacket.

## Features and Specifications

- Primarily used for safety lock out applications
- 6 pin tumbler mechanism
- Self latching or deadlocking (key retained)
- Dual shackle locking points
- Coloured covers available for easy identification.

## Product Details

### Materials

Body: Solid brass.  
Shackle: Stainless steel.

### Function

Spring loaded shackle, available with latching function where the key can be removed with the shackle in the open position (L) or deadlocking function where the key is retained and can only be removed with the shackle in the locked position (D).

### Finish

Body: Red anodized aluminum.  
Shackle: Natural material.

### Cylinders

Integrated cylinder, 6 pins.

### Shackles

4.8mm diameter, 19mm, 38mm and 50mm lengths.

# 312 Safety Lockout Hasp

Lockwood's unique patented Safety Lockout Hasp design provides protection for various portable installations suitable for both single and multipoint\* locking applications. This product provides maximum protection when used in conjunction with Lockwood's 312 Series padlocks and ensures equipment can be isolated and not activated again until the repairs or maintenance are completed.

The locked out device cannot be reactivated until all workers have signed off on their portion of the project and removed their padlock from the hasp.

Lockwood's guarantee of quality means that you can be confident in your choice of Lockwood Safety Lockout products.

\*When used in conjunction with 312 cables sold separately.

## Product Details

<b>Materials</b>	Shackle: Stainless Steel. Locking points: Stainless Steel. Rivets: Stainless Steel. Spring: Stainless Steel. Body: Galvanised Steel.
<b>Functions</b>	Single action shackle release trigger. Piggy back function.
<b>Finish</b>	Powdercoat red.
<b>Accessories</b>	Red PVC coated cables are available separately for multi point locking in lengths of 1.5m, 6m, and 10m.

# 312 Safety Lockout Hasp

## Features and Specifications

- Multi-function Safety Lockout Hasp with the unique design cable locking feature
- Hardened Stainless Steel hasp
- Self-latching
- Single action shackle release trigger
- Six padlock holes accept up to 6.5mm shackle diameter
- Heavy duty stainless steel return spring
- Piggy back function
- Stainless steel body rivets
- Highly visible red powder coat finish
- Multi point locking (when used in conjunction with cable)

## Dimensions

# 312 Covered Supervisors Hasp

This product is specifically designed for use with Lockwood's 312 Series padlocks and ensures equipment can be isolated and not activated again until repairs or maintenance is completed.

The locked out device cannot be reactivated until the Supervisors Padlock is unlocked. The Supervisors padlock is only accessible after all workers have signed off on their portion of the project and have removed their padlock from the hasp.

The hasp will lock over a 312 Series Padlock with 10 lockout positions and a window to view the laser etched details on the supervisor's padlock. It is available in two colours, yellow and blue to represent day shift and night shift workers.

Lockwood's guarantee of quality means that you can be confident in your choice of Lockwood Safety Lockout products.

## Features

- Laser etched details window
- 10 lock out positions
- Powder coated yellow and blue finish options
- Durable zinc plated steel construction
- Cut-outs for reduced weight

\*312 padlocks sold separately.

## Dimensions

# 312 Series Safety Lockout Range - Accessories

## Padlock Holder for 4 Padlocks

<b>Part Number</b>	312 HOLDER/4
<b>Finish</b>	Black

The Lockwood 312 Holder/4 has the capacity to hold four 312 Lockwood Padlocks (19 mm – 80 mm shackle), a retractable 312 Keyline and 312 Series Safety Jaws.

The carry case is designed to be easily fitted onto your belt. The 312 Holder also includes a clear face compartment which makes identification easy.

**Note:** Padlocks and Accessories are ordered separately.

## Padlock Holder for 6 Padlocks

<b>Part Number</b>	312 HOLDER/6
<b>Finish</b>	Black

The Lockwood 312 Holder/6 has the capacity to hold six 312 Lockwood Padlocks (19 mm – 80 mm shackle), a retractable 312 Keyline and the 312 Series Safety Jaws.

The carry case is designed to be easily fitted onto your belt. The 312 Holder also includes a clear face compartment which makes identification easy.

**Note:** Padlocks and Accessories are ordered separately.

## Retractable Key Holder

<b>Part Number</b>	312KEYLINE
<b>Finish</b>	Chrome Plate/Black

This compact retractable key holder incorporates a spring loaded mechanism, a robust steel cable line and key ring.

The built in clip allows easy fitting onto the 312 Holder, or can be used independently. The 312 Keyline ensures keys are easily accessible when needed.

**Note:** Padlocks and Accessories are ordered separately.

# 312 Series Safety Lockout Range - Accessories

## Safety Lockout Jaws

Part Number	Description
312JAWS	25mm - 6 Holes
312JAWS/7	25mm - 7 Holes

The safety lockout jaws ensure that machinery stays 'locked out' until each person removes his/her padlock from the hasp. This prevents any accidental re-energising of machinery before crews have completed their work.

The 312 Jaw holds up to six 312 padlocks and is made from hardened steel with a vinyl coating.

**Note:** Padlocks and Accessories are ordered separately.

## Lock Box - 13 Hole Red

Part Number	312LB/13
-------------	----------

Group Lockout Boxes are used for isolating energy points when a large team is working. Using a group lockout box ensures staff safety by preventing activation of energy points until all maintenance locks have been removed.

Accepts 13 lockout padlocks.

**Note:** Padlocks and Accessories are ordered separately.

## Lockout Station - 40 Padlock Capacity

Part Number	312LOS/40
-------------	-----------

Conveniently store your most used lockout items close to lockout points. Two padlock rails have capacity for up to 40 lockout padlocks plus two stepped tag holders and a smaller rail for lockout hasps.

Simply add extra stations to increase capacity for larger requirements.

**Note:** Padlocks and Accessories are ordered separately.

# Trailer Air Coupling Lock

The Lockwood Air Coupling Locks have been designed for the securing of Truck (Trailer) and industrial compressed air line applications. When attached to the air line this product provides security and safety.

**Security:** Whereby the air brakes air line fitting is effectively sealed when the lock is attached, preventing connection to the opposing fitting. In the case of a Trailer application this reduces the risk of the trailer being connected to a truck without authorisation.

**Safety:** In an industrial application the sealing of the air line can reduce the risk of an accidental connection of equipment when shut down for maintenance etc.

The Lockwood Air Coupling Lock range consist of two series, the AL Series and the TL Series.

## AL Series

The AL Series comes with an integrated cylinder that can be keyed to most restricted key systems.

It is available in two models to suit both the ½" NPT female air coupling and the ½" NPT male air coupling.

## TL Series

The TL Series is locked with a padlock. The locking point allows for use of a padlock with under 10mm shackle diameter.

It is available in two models to suit both the ½" NPT female air coupling and the ½" NPT male air coupling.

# Air Coupling Types

## Air Coupling Types

Air Couplings come in different sizes, the AL & TL Series are designed to work with ½ inch couplings;

- 1/2" NPT male coupling = AL Series 63 or TL Series 1/2IN
- 1/2" NPT female coupling = AL Series 81 or TL Series 28MM

Note: Air Couplings are not supplied.

½" NPT male thread coupling

½" NPT female thread coupling

# AL Series

## AL Series

The AL Series comes with an integrated cylinder that can be keyed to most restricted key systems.

It is available in two models to suit both the ½" NPT female air coupling and the ½" NPT male air coupling.
