

1 Slide soap dish onto riser rail to desired height.

2 Remove caps from both mounting holders

3 Fit mounting holders onto riser rail assembly

4 Position riser rail assembly on wall and mark hole location with pencil.

Drill mounting hole with 6mm drill bit.

5 Fit wall plugs into wall holes.

Screw riser rail assembly to the wall.

6 Replace caps back into mounting holders.

7 Apply teflon tape to water outlet thread.

Fit adaptor into water outlet and tighten up.

8 Insert rubber washers and flow restrictor as shown in diagram

Screw wall outlet connector to hose carefully, ensuring the flow restrictor is not damaged in the process.

Connect hand shower to hose.

recommended working pressure
150-500 KPa

maximum hot water temperature
75 degrees

NOTE:

- If the pressure exceeds or is likely to exceed 550kpa, an approved pressure limiting device must be installed.
 - Flush out all pipe work prior to installation.
 - If the water temperature exceeds 75°C, an approved tempering valve must be fitted.
 - Installation should comply with Australian standard AS3500.1 or relevant local authority requirements.
- Showers may not be suitable for use within:
- Gravity-fed water systems
 - Some instantaneous hot water systems; or

- Pressure supply less than 150kPa;

NOTE: After installing this product, retighten the flow controller housing to prevent removal by hand.

Failure to comply with the above may void all warranties.

WARRANTY:

Please refer to the full warranty statement enclosed with the product before installing. Or visit www.phoenixtapware.com.au to download a copy.

MAINTENANCE AND CARE:

- Products should be cleaned with mild liquid detergent or soap and water.
- Do not use cream cleaners or citrus based cleaning products, as they are abrasive.
- Use of unsuitable cleaning agents may damage the surface. Any damage caused in this way will not be covered by warranty.

DISCLAIMER:

While we aim to ensure the specifications shown are correct at the time of printing, Phoenix Builders reserves the right to make modifications without prior notice. Always use the physical product measurements for mark-ups and roughing-in as the line drawing shown may differ from the actual product over time. *All measurements are shown in millimeters.
