*Enware products are to be installed in accordance with the Plumbing Code of Australia and AS/NZS3500.

AS/NZS 3500.4 Heated Water Services:

All heated water installations for sanitary fixtures used primarily for personal hygiene purposes shall deliver heated water at a temperature not exceeding:

- 45°C for healthcare and aged care buildings, early childhood centres, primary and secondary schools and nursing homes, or similar facilities for the aged, the sick, children or people with disabilities; and
- 50°C for all other situations (Laundries and kitchen sinks are not required to have heated water at a maximum of 50°C)

NOTE: Enware Australia advises:

1. Due to ongoing Research and Development, specifications may change without notice.
2. Component specifications may change on some export models.
