REACHING PERFECTION

SWAY

REACHING PERFECTION

LEADING TRENDS

reddot design award

Slim profile and featherlight lines. SWAY is well-composed design at its best. Tight design, high functionality and streamlined elegance, which is hand-crafted in the initial phases by Pressalit's in-house designer Lars Herold.

The soft sweeping and delicate design is proof of a perfect meeting between masculine stringency and feminine curves. That SWAY D won the Red Dot Award 2016 - the biggest international recognition in the design world - is therefore no great surprise. With extensive knowledge of the simple, Nordic look, two new variants have now been added.

SWAY is a must-have for the discerning minimalist and is available in the following versions: SWAY D, SWAY D2 and SWAY Uni.

LIFT-OFF

Easy cleaning. With a simple movement, the seat is removed from the toilet for thorough cleaning. The bathroom is always welcoming.

SOFT CLOSING

Feather-light luxury. A gentle nudge is all it takes to close the seat in a smooth movement.

BEHIND THE DETAIL

PERFECT FIT

A sure match. The seats fits many toilets.

GUARANTEED DURABILITY

Resistant design. The seat is suitable for everyday use and is made of colour ingrained duroplast, so scratches won't show. You get 10 years warranty.

For 60 years now we have been a chapter in Danish design history - a heritage that propels us forward. Creating a complete design requires us to constantly focus on researching, perfecting and refining. We are driven by trendsetting and adding minimalist and aesthetic beauty to our seats, down to the last detail. That's why you will find a certain finesse on the side of your SWAY toilet seat, in the form of the new Pressalit branding.

The emblem is not a name tag, but your guarantee of a unique Scandinavian design product. It's a mark of quality for a stylish choice and distinct comfort, which you can enjoy every day for many years.

The stainless steel emblem has been designed to catch both light and shadow, and therefore comes alive in your minimalist design. It's the simple and beautiful things that turn a bathroom into your own design room.
